3 PHASE TRAINING

FERC Accounting for Electric Utilities

Apply the FERC Uniform System of Accounts to electric utility transactions and reporting.

What is the course?

Work through capital and expense decisions, construction and plant records, depreciation, and regulatory balances. See how accounting choices and supporting records connect to rate proceedings, reporting, and review.

Who should attend?

Utility accountants, plant accounting staff, finance analysts, project managers, auditors, regulatory personnel, and engineers responsible for capital expenditure records.

Eight hours of instructor-led training.

Why Choose Us?

Cost
Your organization pays one course fee with unlimited attendees at no extra cost.

Quality and Experience
Real projects and interactive discussion connect concepts to practical decisions.

Customization
Each course content is individually customized to your team and organization
