3 PHASE TRAINING

NERC Critical Infrastructure Protection (CIP) Compliance

Understand how NERC CIP obligations apply to bulk electric system cybersecurity programs.

What is the course?

Connect scope and governance to access, system security, information protection, and supplier risk. Discuss how utility teams document controls, prepare for assessments, and coordinate incident response and recovery.

Who should attend?

CIP compliance staff, IT and OT security teams, system administrators, substation and control-center personnel, physical security staff, auditors, and managers responsible for covered assets.

Eight hours of instructor-led training.

Why Choose Us?

Cost

Your organization pays one course fee with unlimited attendees at no extra cost.

Quality and Experience

Real projects and interactive discussion connect concepts to practical decisions.

Customization

Each course content is individually customized to your team and organization

Content examples

Scope and access

- CIP scope and governance
- Security roles and personnel
- Electronic access
- Physical security

System and information security

- Configuration and change controls
