3 PHASE TRAINING

Wholesale Electricity Markets

Follow wholesale electricity from commitment and dispatch through pricing and settlement.

What is the course?

Compare electricity market structures and participant roles. Use practical examples to see how physical grid constraints, market rules, and contracts affect prices, reliability services, and financial exposure.

Who should attend?

Utility employees, planners, regulatory and finance teams, customer account staff, generation personnel, and professionals seeking a practical foundation in wholesale electricity markets.

Eight hours of instructor-led training.

Why Choose Us?

Cost
Your organization pays one course fee with unlimited attendees at no extra cost.

Quality and Experience
Real projects and interactive discussion connect concepts to practical decisions.

Customization
Each course content is individually customized to your team and organization
